

BO WAUTERS

As a future game developer, I am looking forward to use the skills I have learnt during my education at Howest and UCLL in a job where I can develop the next generation of video games.

SKILLS

Programming

Java : Good
Javascript : Good
Typescript: Good
C#: Good
C++: Good
Python: Intermediate
Elixir: Intermediate

Engines

Unity: Good
Unreal Engine: Good
Godot: Beginner

EDUCATION

Game Design

University of Wisconsin Stout
Aug 2025 - Dec 2025

- I gained experience in different skills, including photography/videography, the psychology of video games, cybersecurity, 3D modeling and animation and using game programming patterns in game engines

Digital Arts & Entertainment

Howest
Sep 2023 - Now

- I have studied the entire process of gaming through C++ programming for developing game graphics and gameplay and learnt about common game engines

Game Development

Cardiff Metropolitan University
Sep 2022 - Dec 2022

- In my third year at UCLL I studied a semester abroad in Cardiff where I gained my first experience in developing games.

Applied Computer Science

UCLL
Sep 2020 - Jun 2023

- During this degree I learned how to make the front-end and back-end of websites, how to use databases and some of the basics of how networks work.

BO WAUTERS

LANGUAGES

Dutch: Mother tongue

English : Fluent

French: Intermediate

RELEVANT EXPERIENCE

KU Leuven

Internship

Feb 2026 - now

- Developing an application for training medical professionals on IVF

Faros

Internship

Mar 2023 - Jun 2023

- Programming an AI to sort Legos and connecting it to a front-end and back-end using websockets

Materialenbank Leuven

Graduation project

Feb 2023 - Mar 2023

- Setup of a mobile application for recycling of building materials. This application was nominated for the Moving Minds Award of the UCLL and for an FTI award from the Flemish government.

STUDENT JOBS
